OPEN SOURCE SECURITY FOUNDATION

Public inquiry phase for CRA-related standards

CRA Work Items

CRA	M/606 ID	Venue	Work Item	Standard reference	Standard title
		CEN-CLC/JTC 13 WG 9	JT013095	EN 40000-1-1	Cybersecurity requirements for products with digital elements – Vocabulary
I.I	2 to 14	CEN-CLC/JTC 13 WG 9 PT1	JT013089	EN 40000-1-2:2025	Cybersecurity requirements for products with digital elements – Principles for cyber resilience
I.II	2 to 14	CEN-CLC/JTC 13 WG 9 PT3	JT013090	EN 40000-1-3	Cybersecurity requirements for products with digital elements – Vulnerability Handling
	2 to 14	CEN-CLC/JTC 13 WG 9 PT2	JT013091	EN 40000-1-4	Cybersecurity requirements for products with digital elements – Generic Security Requirements
	2 to 14	CEN-CLC/JTC 13 WG 9	JT013097	TR 40000-1-5	Cybersecurity requirements for products with digital elements – Threats and Security Objectives
	2 to 14	CEN-CLC/JTC 13 WG 6	JT0130XX	TS TTTTTTT	Guidance for the application of EN 18037 in support of the CRA
	2 to 14	CEN-CLC/JTC 13 WG 6	JT0130XX	TR TTTTTT	Documentation of the EN 18037 assessment results for the Consumer IoT market sector
III.I.1	16	CEN/TC 224 WG 17		EN TTTTTTT	Identity management systems and privileged access management software and hardware, including authentication and access control readers, including biometric readers : criteria to fulfill with the essential requirements from regulation 2024/2487 (CRA)
III.I.2	17	ETSI CYBER-EUSR	DEN/CYBER-EUS-006	EN 304 617	Essential cybersecurity requirements for browsers
III.I.3	18	ETSI CYBER-EUSR	DEN/CYBER-EUS-007	EN 304 618	Essential cybersecurity requirements for password managers
III.I.4	19	ETSI CYBER-EUSR	DEN/CYBER-EUS-0018	EN 304 619	Essential cybersecurity requirements for software that searches for, removes, or quarantines malicious software
III.I.5	20a	ETSI CYBER-EUSR	DEN/CYBER-EUS-005	EN 304 620	Essential cybersecurity requirements for virtual private networks (VPNs)
III.I.5	20b	CLC/TC 65X WG 3	81652	EN 62443-5-XX	Security Profile for products with digital elements with the function of virtual private network (VPN)
III.I.5+6+7	20b+21b+22b	CLC/TC 65X WG 3	79830	EN IEC 62443-3-3:2019	Industrial communication networks - Network and system security - Part 3-3: System security requirements and security levels
III.I.5+6+7	20b+21b+22b	CLC/TC 65X WG 3	81487	EN IEC 62443-4-1:2018	Security for industrial automation and control systems - Part 4-1: Secure product development lifecycle requirements
III.I.5+6+7	20b+21b+22b	CLC/TC 65X WG 3	79973	EN IEC 62443-4-2:2019	Security for industrial automation and control systems - Part 4-2: Technical security requirements for IACS components
III.I.6	21a	ETSI CYBER-EUSR	DEN/CYBER-EUS-009	EN 304 621	Essential cybersecurity requirements for network management systems
III.I.6	21b	CLC/TC 65X WG 3	81650	EN 62443-5-XX	Security Profile for network management systems (based on IEC 62443)
III.I.7	22a	ETSI CYBER-EUSR	DEN/CYBER-EUS-0010	EN 304 622	Essential cybersecurity requirements for Security information and event management (SIEM) systems
III.I.7	22b	CLC/TC 65X WG 3	81654	EN 62443-5-XX	Security Profile for security information and event management (SIEM) systems (based on IEC 62443)
III.I.8	23	ETSI CYBER-EUSR	DEN/CYBER-EUS-008	EN 304 623	Essential cybersecurity requirements for boot managers

CRA Work Items

CRA	M/606 ID	Venue	Work Item	Standard reference	Standard title
III.I.9	24	ETSI CYBER-EUSR	DEN/CYBER-EUS-0015	EN 304 624	Essential cybersecurity requirements for public key infrastructure and digital certificate issuance software
III.I.10	25a	ETSI CYBER-EUSR	DEN/CYBER-EUS-0017	EN 304 625	Essential cybersecurity requirements for physical and virtual network interfaces
III.I.10	25b	CLC/TC 65X WG 3	81651	EN 62443-5	Security Profile for physical and virtual network interfaces (based on IEC 62443)
III.I.11	26	ETSI CYBER-EUSR	DEN/CYBER-EUS-0012	EN 304 626	Essential cybersecurity requirements for operating systems
III.I.12	27a	ETSI CYBER-EUSR	DEN/CYBER-EUS-0013	EN 304 627	Essential cybersecurity requirements for routers, modems intended for the connection to the internet, and switches
III.I.12	27b	CLC/TC 65X WG 3	81653	EN 62443-5	Security Profile for routers, modems intended for the connection to the internet, and switches (based on IEC 62443)
III.I.13+14	28, 29	CLC/TC 47X WG 1	80923	EN 50765	Essential cybersecurity requirements for microprocessors and microcontrollers with security-related functionalities
III.I.15	30	CLC/TC 47X/WG CRA		EN 50767	Essential cybersecurity requirements for application specific integrated circuits (ASIC) and field-programmable gate arrays (FPGA) with security-related functionalities
III.I.16	31	ETSI CYBER-EUSR	DEN/CYBER-EUS-0011	EN 304 631	Essential cybersecurity requirements for smart home general purpose virtual assistants
III.I.17	32	ETSI CYBER-EUSR	DEN/CYBER-EUS-0014	EN 304 632	Essential cybersecurity requirements for smart home products with security functionalities, including smart door locks, security cameras, baby monitoring systems and alarm systems
III.I.18	33	ETSI CYBER-EUSR	DEN/CYBER-EUS-004	EN 304 633	Essential cybersecurity requirements for Internet connected toys covered by Directive 2009/48/EC that have social interactive features (e.g. speaking or filming) or that have location tracking features
III.I.19	34	ETSI CYBER-EUSR	DEN/CYBER-EUS-003	EN 304 634	Essential cybersecurity requirements for personal wearable products to be worn or placed on a human body that have a health monitoring (such as tracking) purpose and to which Regulation (EU) 2017/745 or Regulation (EU) 2017/746 do not apply or personal wearable products that are intended for the use by and for children
III.II.1	35	ETSI CYBER-EUSR	DEN/CYBER-EUS-0016	EN 304 635	Essential cybersecurity requirements for hypervisors and container runtime systems that support virtualised execution of operating systems and similar environments
III.II.2	36a	ETSI CYBER-EUSR	DEN/CYBER-EUS-0020	EN 304 636	Essential cybersecurity requirements for firewalls, intrusion detection and/or prevention systems
III.II.2	36b	CLC/TC 65X WG 3	81649	EN 62443-5	Security Profile for firewalls and intrusion detection and prevention systems (based on IEC 62443)
III.II.3+4	37, 38	CLC/TC 47X WG 2	80924	EN 50766	Cybersecurity requirements for tamper-resistant microprocessors and microcontrollers
IV.1	39	CEN/TC 224 WG 17	002242XX	EN TTTTT	Cybersecurity requirements for Hardware Devices with Security Boxes
IV.2	40	CEN-CLC/JTC 13 WG 6	JT013102	prEN 40000-x-x	Cybersecurity requirements for products with digital elements – Smart Meter Gateway
IV.3	41a	CLC/TC 47X WG 3	80922	EN 50764	Cyber Resilience of EUCC certified platforms of Smart Cards and Similar Devices Including Secure Elements
IV.3	41b	CEN/TC 224 WG 17		prEN 18330	Cybersecurity requirements for smartcards or similar devices, including secure elements – Application layer
		ETSI CYBER-EUSR	DEN/CYBER-EUS-0019	EN 304 642	Cybersecurity Requirements for Network Functions of Telecommunications Systems

Public Inquiry for CEN Horizontal Standards

- PT1 and Vocabulary have ended their public inquiry phase
  - Endorsed by National Bodies
  - 65 comments for vocabulary
  - 1653 comments for PT1
  - Comments resolution phase: 12 January - 26 April
  - Three meetings per week
- PT2
  - Has resumed its activities on 2 December
  - They will publish a supporting TR "Cybersecurity requirements for products with digital elements – Threats and Security Objectives" very soon
    - Submitted to CCMC and HAS for comments
    - It will enter afterwards in the public inquiry phase
  - It's the only horizontal that will be delivered in 2027
  - Move forward with EN 18031 Baseline
  - Two days of meetings (8h in total/week)
  - Public Inquiry phase is planned for 3 months in May-July 2026
- PT3
  - CEN sent PT3 (40000-1-3) to the NSBs to initiate the ENQ phase at the beginning of December
  - Out for Public inquiry
    - available at NBN – deadline: 9 Feb
    - Deadline at EVS – 28 February
    - Deadline BSI UK – 3 February
    - Deadline ASI – 12 February
    - Deadline UNE – 14 February
  - Still not clear if it will get the presumption of conformity
  - Expected to be published in October 2026
  - Comment resolution will start in March

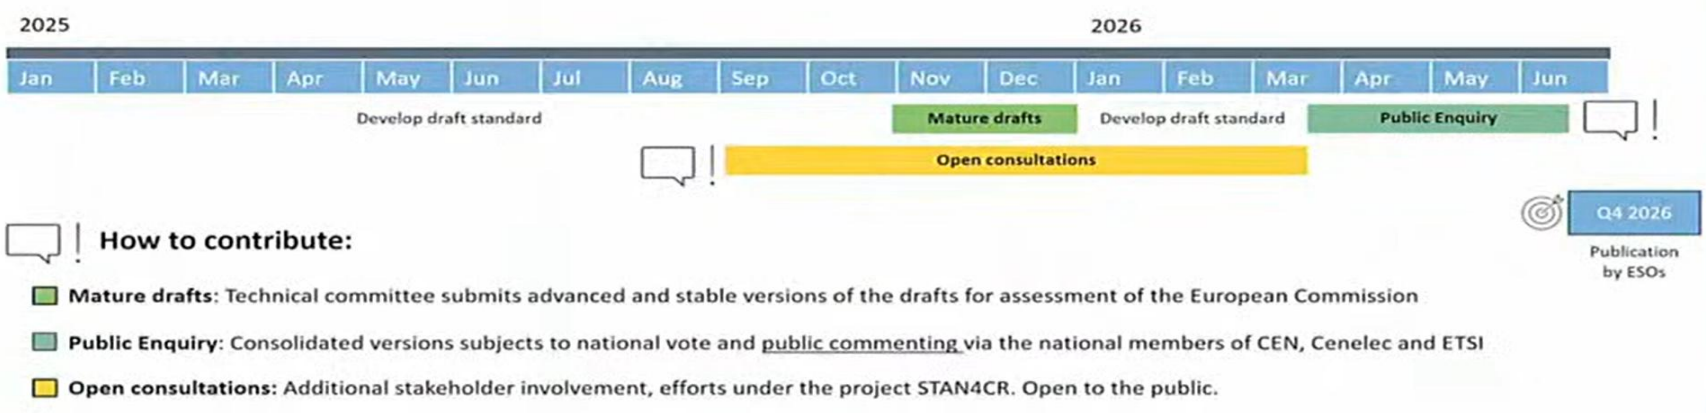
	Oct-25	Nov-25	Dec-25	Jan-26	Feb-26	Mar-26	Apr-26	May-26	Jun-26	Jul-26
Vocabulary 40000-1-1										
PT1 40000-1-2										
PT2 40000-1-4										
PT3 40000-1-3										

Public Inquiry for CEN Vertical Standards

- prEN 18330
  - Cybersecurity requirements for smartcards or similar devices, including secure elements – Application layer
  - Developed under TC 224
  - https://app.nbn.be/data/r/platform/public-portal/home?p_lang=en
- Cybersecurity requirements for products with digital elements – Smart Meter Gateway
  - JT013102
  - Developed by WG6
  - Project with restricted access
  - Out for WG6 consultation
- Sector Specific Risk Assessment
  - Guidance for the application of EN 18037 in support of the CRA – JT013099
  - Documentation of the EN 18037 assessment results for the Consumer IoT market sector – JT013100
  - Focuses on CRA obligations
  - EN 18037

ETSI Open/Public Consultation

- One phase per month
  - Followed by resolution of the comments
- Instructions for submitting feedback can be found in the readme.md files available with every standard. There are two official submission options:
  - Directly in the .md file or related to the .pdf files from the labs.etsi.org repositories.
  - Via an Excel template available on docbox.etsi.org.
- My strong suggestion is to submit your feedback using one of the two official ETSI options listed above.
- Some of the standards are ready to be sent for HAS assessment



ETSI (upcoming) deep-dive sessions

These sessions will focus on the following topics:

- Network Management Systems
  - On January 21, between 2 and 3:30 PM CET
  - Registration link: https://portal.etsi.org/Meetings.aspx#/meeting?MtgId=84016
  - To connect: https://meet.goto.com/etsicybereusr/deep-dive-sessions
- Physical and Virtual Network Interfaces
  - On January 21, between 3:30 PM and 5 PM CET
  - Registration link: https://portal.etsi.org/Meetings.aspx#/meeting?MtgId=84017
  - To connect: https://meet.goto.com/etsicybereusr/deep-dive-sessions
- Browsers
  - On January 22, between 3:30 PM and 5 PM CET
  - Registration link: https://portal.etsi.org/Meetings.aspx#/meeting?MtgId=84018
  - To connect: https://meet.goto.com/etsicybereusr/deep-dive-sessions
- Operating Systems
  - On January 23, between 10 AM and 11:30 AM CET
  - Registration link: https://portal.etsi.org/Meetings.aspx#/meeting?MtgId=84019
  - To connect: https://meet.goto.com/etsicybereusr/deep-dive-sessions
- SIEM Systems
  - On January 23, between 11:30 AM and 1 PM CET
  - Registration link: https://portal.etsi.org/Meetings.aspx#/meeting?MtgId=84020
  - To connect: https://meet.goto.com/etsicybereusr/deep-dive-sessions
- Consumer IoT
  - On February 6, between 2PM and 5PM CET
  - Registration link: https://portal.etsi.org/Meetings.aspx#/meeting?MtgId=84021
  - To connect: https://meet.goto.com/etsicybereusr/deep-dive-sessions

As before, these sessions are open to the general public and are designed to provide detailed insight into the ongoing work by ETSI rapporteurs.
They also offer an excellent opportunity for participants to explore draft standards and share feedback.

Events

FOSDEM 2026

CRA in practice

Room: UA2.114 (Baudoux)
Calendar: iCal, xCal
Chat: Join the conversation!

Read the Call for Papers at https://lists.fosdem.org/pipermail/fosdem/2025q4/003697.html.

Event	Speakers	Start	End
Saturday			
Welcome to the Devroom	Roman Zhukov	15:00	15:05
Software Supply Chain Strategy at Deutsche Bahn	Max Mehl, Henry Sachs	15:05	15:30
CRA-by-Design: Protocol-Embedded Compliance for EV Charging Infrastructure	Achim Friedland	15:30	15:55
Erlang/OTP's journey toward CRA compliance	Kiko Fernandez-Reyes	15:55	16:20
CRA Compliance in Embedded Systems: A Practical Look from the Yocto Project World	Marta Rybczynska	16:20	16:45
Building CRA-Ready Open Source Communities: The Critical Role of Community Managers	Cynthia Lo, Cassie Jiun seo	16:45	17:00
Panel: From Minimum Compliance to Meaningful Stewardship	Madalin Neag	17:00	17:30
VEX - Cutting through the Noise in Software Supply Chain Security	Rao Lakkakula, Georg Kunz	17:30	17:45
First steps towards CRA conformity. A practical introduction to cybersecurity risk management.	Harald Fischer	17:45	18:00
Can security attestations deliver on their promise to simplify due diligence and strengthen open source sustainability?	Tobie Langel	18:00	18:15
CRA-ppy data: We need better open data for CRA compliance	Georg Link, Thomas Steenbergen	18:15	18:30
Panel: Why is the CRA worth a FOSS maintainer's attention?	Roman Zhukov, Philippe Ombredanne	18:30	19:00

OpenSSF's Stand location: K2-A-03-Linux Foundation Europe + Open Source Security Foundation (next to CNCF + OpenInfra stand)

Open Source & EU Policy

Room: UA2.118 (Henriot)
Calendar: iCal, xCal
Chat: Join the conversation!

Read the Call for Papers at https://softwarefreedom.net/fosdem-2026-cfp.

Event	Speakers	Start	End
Sunday			
The Euroshack	André Rebentisch	10:10	10:20
The Missing Level: Why EU Open Source Fails Locally	Rasmus Frey	10:20	10:30
Public Procurement for Digital Sovereignty	Sebastian Raible	10:30	11:10
From policy to practice: implementing the EU AI Act for open-source software	Daphne Muller	11:30	11:45
Digital Omnibus: is the EU's tech simplification a Risk or Opportunity for Open Source?	Denise R. S. Almeida	11:45	12:00
The Fediverse and the EU's Digital Services Act: solving the challenges of modern social media?	Jordan Maris	12:00	12:30
HowTheyVote.eu - how we make European Parliament roll-call votes more accessible	Linus Hagemann, Till Prochaska	13:10	13:20
How to engage with policymakers as civil society	Jordan Maris, Sebastian Raible	13:20	14:00
Could Compliance Costs Sustain FOSS? A Theory of Voluntary Attestations	Æva Black	15:20	15:40
Could Compliance Costs Sustain FOSS? A Panel With The Public Sector	Æva Black, Michael Schuster, Greg Wallace, Tommaso Bernabo'	15:40	16:20
Participating in Standardisation around the CRA	Simon Phipps, Jordan Maris	16:20	16:30
Effective standard-setting	Tobie Langel	16:30	17:00

SBOMS and supply chains

Room: UD2.208 (Decroly)
Calendar: iCal, xCal
Chat: Join the conversation!

Read the Call for Papers at https://lists.fosdem.org/pipermail/fosdem/2025q4/003702.html.

Event	Speakers	Start	End
Sunday			
Welcome to the SBOMs and Supply Chains devroom!	Alexios Zavras (zvr), Kate Stewart, Adolfo García Veytia, Thomas Steenbergen	09:00	09:10
The day in a life of a SBOM	Anthony Harrison	09:10	09:30
When One Product Has Three SBOMs: Lessons from Embedded Vulnerability Management	Marta Rybczynska	09:30	10:00
Contextual SBOMs and impact on vulnerability management	Erik Mravec, Martin Jediný	10:00	10:30
Beyond SBOM: Integrating VEX into Open Source Workflows	Piotr P. Karwasz	10:30	11:00
From Passive Data to Active Defense: Supply Chain Policy-as-Code with Conforma	Stefano Pentassuglia	11:00	11:30
CRA-Ready SBOMs: A Practical Blueprint for High-Quality Generation	Viktor Petersson	11:30	12:00
Deutsche Bahn's Approach to Large-Scale SBOM Collection and Use	Max Mehl, Henry Sachs	12:00	12:20
LibreOffice and Collabora Online - how we managed to automate SBOM generation for a large legacy project	Thorsten Behrens	12:40	13:00
Forget SBOMs, use PURLs	Philippe Ombredanne, Steve Springett	13:20	13:40
What is new in SPDX 3.1 which is now a Living Knowledge Graph	Karen Bennet	14:00	14:30
A semantic framework for modelling and analysing supply chains through SBOMs	Giacomo Tenaglia	14:30	15:00
C/C++ Build-time SBOMs with pkgconf	Arianne Conill	15:30	16:00
Enhancing Swift's Supply Chain Security: Build-time SBOM Generation in Swift Package Manager	Ev Cheng, Sam Khouri	16:00	16:30
Generating SBoMs for BuildStream projects	Abderrahim Kitouni	16:30	17:00

OpenSSF

FOSDEM 2026

- **FOSDEM - CRA-In-Practice Devroom - Call For Volunteers**
- Saturday, 31 Jan 2026, 14:45 - 19:00 (half day, after lunch)
- Room UA2.114 (Baudoux), ULB Solbosch Campus, Brussels, Belgium.

Role	Description
Room Keeper (outside)	Let attendees in/out, keep the door closed when room is full
Room Manager (inside)	Guide attendees to their seats, watch when is full, open/close windows, check video recording is on
Timekeeper + Mic Runner	Raise a time sheet/reminder for speakers (5 min, 3 min, Time is up); Provides a mic to attendees in the room for Q&A
Extra Hand	Support whatever may come up (and usually it does) at such an event as FOSDEM

Have your say

Public Consultation on European Open Digital Ecosystem Strategy

- https://ec.europa.eu/info/law/better-regulation/have-your-say/initiatives/16213-European-Open-Digital-Ecosystems_en
- The European Open Digital Ecosystem Strategy will set out:
  - a strategic approach to the open source sector in the EU that addresses the importance of open source as a crucial contribution to EU technological sovereignty, security and competitiveness
  - a strategic and operational framework to strengthen the use, development and reuse of open digital assets within the Commission, building on the results achieved under the 2020-2023 Commission Open Source Software Strategy.
- Deadline – 3 February

RED DA Repeal

- OpenSSF has submitted an answer
- *"OpenSSF supports the repeal of the RED Delegated Act on cybersecurity as of 11 December 2027. The CRA establishes a comprehensive horizontal framework for product cybersecurity that encompasses the categories of radio equipment currently addressed by the RED Delegated Act. As noted by the Commission, the essential cybersecurity requirements in Annex I to the* ***CRA cover the same objectives as Article 3(3), points (d), (e), and (f),*** *of the RED, including protection of networks, personal data and privacy, and safeguards against fraud. Once the CRA becomes fully applicable,* ***maintaining a sector-specific delegated act addressing identical cybersecurity objectives would risk long-term duplication of obligations and inconsistent enforcement****. A single horizontal framework is better suited to todays converged product landscape, in which radio equipment increasingly depends on complex software stacks and shared open source components reused across multiple product categories and sectors. From the perspective of global software supply chains and open source driven innovation,* ***consolidation under the CRA is therefore preferable*** *to layered or overlapping regulatory regimes."*

European Standardisation Panel Survey

- Previous version of EU Standardisation Panel Survey: https://op.europa.eu/en/publication-detail/-/publication/d5c4f1a7-e75e-11ee-9ea8-01aa75ed71a1/language-en
- If you want to contribute to a common answer, you can add your views here: https://docs.google.com/document/d/1HXHV8BkHnx4SPThYdK_8Kpbuol2Ay8SB3sgDo0z7LbA/edit?tab=t.0#heading=h.tfjssb1lbwkc
- The Commission has launched the second edition of the European Standardisation Panel survey to gather input from the industry and other stakeholders on their standardisation needs, to boost innovation and European competitiveness
- Deadline 31 January

ENISA’s calls for feedback

- **Advancing Software Supply Chain Security together**
  - draft report
  - You may provide your feedback by **23 January 2026 at 23:59 CET** by taking part in the survey
  - We created a document to collect your feedback
- **ENISA Technical Advisory for Secure Use of Package Managers**
  - draft document
  - You may take part in the consultation for the Technical Advisory **by 23 January 2026, 23:59 CET** through the following link
  - We created a document to collect your feedback

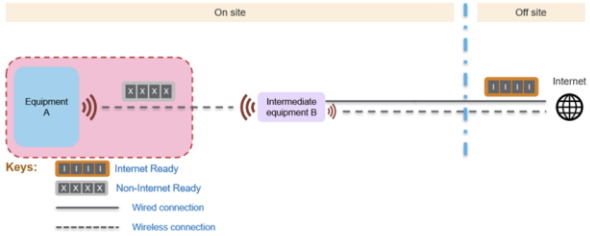
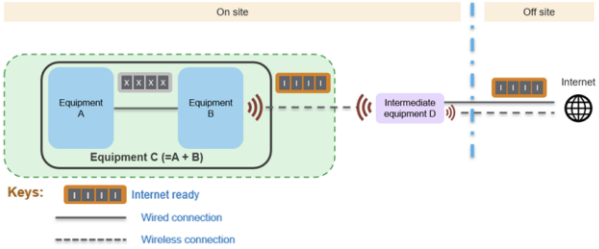
- Provided by ADCORED



Equipment A	
Is it radio equipment falling under the scope of the RED?	Yes. The equipment has radio functionality.
Is it internet-connected radio equipment? (According to article 1 of Delegated Regulation (EU) 2022/30))	No. The equipment does not operate a protocol (open or proprietary) that allows communication over the internet. In this case the risk assessment performed by the manufacturer shall determine if the radio equipment is not capable to communicate with the internet or be accessed from the internet.
Illustrative examples	Standalone door lock using NFC, standalone light bulb using Zigbee, wireless headphones using Bluetooth



Equipment A	
Is it radio equipment falling under the scope of the RED?	No. The equipment has no radio functionality.
Is it internet-connected radio equipment? (According to article 1 of Delegated Regulation (EU) 2022/30))	This is irrelevant since Equipment A is not radio equipment within the RED.
Illustrative example	Washing machine, refrigerator, coffee machine, loudspeaker (without radio functionality)

Equipment B	
Is it radio equipment falling under the scope of the RED?	Yes. The equipment has radio functionality.
Is it internet-connected radio equipment? (According to article 1 of Delegated Regulation (EU) 2022/30))	Yes. The equipment operates a protocol (open or proprietary) that allows communication over the internet via intermediate equipment (indirectly connected).
Illustrative example	Wi-Fi module

Equipment C[3]	
Is it radio equipment falling under the scope of the RED?	Yes. The combined equipment[3] has radio functionality.
Is it internet-connected radio equipment? (According to article 1 of Delegated Regulation (EU) 2022/30))	Yes. The combination of equipment A and equipment B makes equipment C, internet-connected radio equipment. See Case#2
Illustrative example	Smart washing machine, smart refrigerator, smart coffee machine, smart loudspeaker.

eIDAS Standardization Strategy

- eIDAS Regulation (EU) No 910/2014
  - Amended by Regulation (EU) 2024/1183 (eIDAS2)
  - Electronic identification and EUDI Wallets
  - Qualified and non-qualified trust services, including the new qualified trust services: electronic attestations of attributes, remote signature/seal creation devices, electronic archiving, and electronic ledgers
- Standard recognition beyond traditional ESOs
  - Presumption of conformity without hENs
    - Providers demonstrating compliance with implementing acts -> benefit from presumption of conformity
  - Diversified standard sources
    - CEN, CLC, ETSI but also W3C, OASIS, IETF, OpenID Foundation
  - 1025/2012 identification procedure
    - The commission has activated the MSP and initiated the identification of the relevant specifications (Article 13) to assess their compliance with Annex II of 1025
- Implementation tools
  - Github repository
  - Transparent Roadmap for standards in relation with Implementation Acts
  - SDO Collaboration
  - MSP
  - EISMEA Funding

ECCC publishes new call for proposals under Digital Europe Programme

- https://cybersecurity-centre.europa.eu/news/eccc-publishes-new-call-proposals-under-digital-europe-programme-2025-10-22_en
- The call Cyber 09 focuses on critical areas of cybersecurity deployment and covers the following topics:
  - Cybersecure tools, technologies and services relying on AI
  - Uptake of innovative cybersecurity solutions for SMEs
  - Coordinated preparedness testing and other preparedness actions
  - Regional Cable Hubs

ETSI EN 304 223

- Cybersecurity requirements for AI models and systems

CRA Standardization request

EUROPEAN
COMMISSION

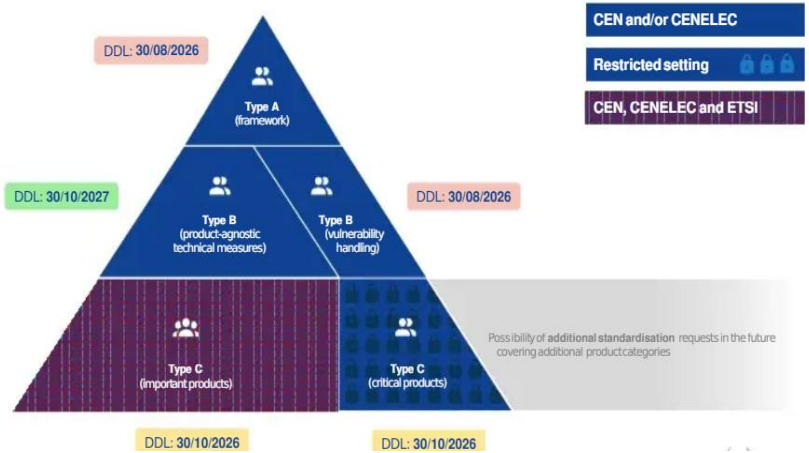
Brussels, 3.2.2025
C(2025) 618 final

COMMISSION IMPLEMENTING DECISION

of 3.2.2025

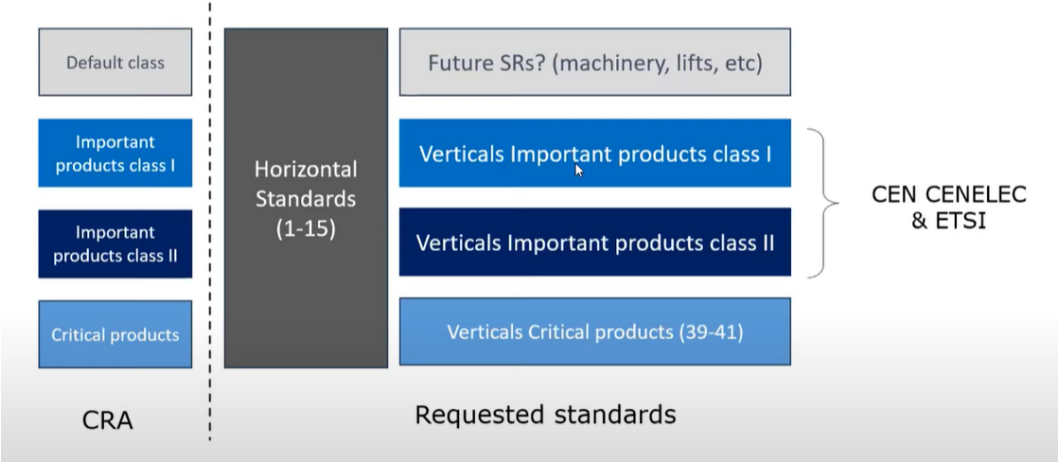
on a standardisation request to the European Committee for Standardisation (CEN), the European Committee for Electrotechnical Standardisation (Cenelec) and the European Telecommunications Standards Institute (ETSI) as regards products with digital elements in support of Regulation (EU) 2024/2847 of the European Parliament and of the Council of 23 October 2024 on horizontal cybersecurity requirements for products with digital elements and amending Regulations (EU) No 168/2013 and (EU) 2019/1020 and Directive (EU) 2020/1828 (Cyber Resilience Act)

https://ec.europa.eu/transparency/documents-register/detail?ref=C(2025)618&lang=en
https://cyberstand.eu/sites/default/files/2025-02/Filipe%20Slides%20CRA_implementation_Feb-2025.pdf



Horizontal standards (1-15)	Vertical standards (16-41)
• Risk-based approach (CRA Annex I) • Essential Requirements (CRA Annex I part 1) • Vulnerability Handling (CRA Annex I part 2)	• Important products class 1 (CRA Annex III) • Important products class 2 (CRA Annex III) • Critical products (CRA Annex IV)

CRA Standardization request



41 topics

3 ‘types’ of deliverables:

Category “A”: horizontal framework	Category “B”: product-agnostic technical measures & vulnerability handling	Category “C”: Important and critical products CRA Standardization Request 9 April 2025 36
• Only CEN and CENELEC • Topic #1 (JTC 13 WG9) • deadline 2026-08-30	• Only CEN and CENELEC • Topic #2-15 (JTC 13 WG9) • Deadline 2027-10-30 (except for line 15 - vulnerability handling - 2026-08-30)	• Topic #16-38: CEN, CENELEC and ETSI • deadline 2026-10-30 • Topic #39-41:CEN and CENELEC • Critical products

CEN, CENELEC and ETSI Work Programme
M/604- Cyber Resilience Act

M/606	Technical Committee(s)		M/606 - Planning for standard development						
Topics M606 - Annex I	TC ref.	TC title	In collaboration with	Work Item	Standard reference	Standard title	Last realized stage	Deadline for adoption	Comment
Line 1: European standard(s) on designing, developing and producing products with digital elements in such a way that they ensure an appropriate level of cybersecurity based on the risks									
1	CEN-CLC/JTC 13 WG 9	Cybersecurity and Data Protection	N/A	JT013089	*EN xxxxxx (Will be be defined after the activation of the Work Item)*	Cybersecurity requirements for products with digital elements Principles for cyber resilience	10.99 - NWI - New Work Item adopted	2026/08/30	
Lines 2-14 - European standard(s) CRA essential requirements									
2 to 14	CEN-CLC/JTC 13 WG 9	Cybersecurity and Data Protection	N/A	JT013091	*EN xxxxxx (Will be be defined after the activation of the Work Item)*	Cybersecurity requirements for products with digital elements – Generic Security Requirements	10.99 - NWI - New Work Item adopted	2027/10/30	
Line 15: European standard(s) on vulnerability handling for products with digital elements									
15	CEN-CLC/JTC 13 WG 9	Cybersecurity and Data Protection	N/A	JT013090	*EN xxxxxx (Will be be defined after the activation of the Work Item)*	Cybersecurity requirements for products with digital elements – Vulnerability handling	10.99 - NWI - New Work Item adopted	2026/08/30	
Line 16: European standard(s) on essential cybersecurity requirements for identity management systems and privileged access management software and hardware, including authentication and access control readers, including biometric readers									
16	CEN/TC 224 WG 17	Personal identification and related personal devices with secure element, systems, operations and privacy in a multi sectorial environment	CEN/TC 224 WG 17 (including expertise from WG 18,19 and 20) TC ESI	002242XX	*EN xxxxxx (Will be be defined after the activation of the Work Item)*	Identity management systems and privileged access management software and hardware, including authentication and access control readers, including biometric readers : criteria to fulfill with the essential requirements from regulation 2024/2487 (CRA)	TC decision taken	2026/10/30	
Line 17: European standard(s) on essential cybersecurity requirements for standalone and embedded browsers									
17a	ETSI CYBER-EUSR	ETSI TC Cyber Working Group for EUSR	CEN-CLC/JTC 13 WG 9	*(Will be be defined after the adoption of the Work Item)*	*EN 304 617-1*	European standard(s) on essential cybersecurity requirements for embedded browsers	PWI - Proposed Work Item created	2026/10/30	
17b	ETSI CYBER-EUSR	ETSI TC Cyber Working Group for EUSR	CEN-CLC/JTC 13 WG 9	*(Will be be defined after the adoption of the Work Item)*	*EN 304 617-2*	European standard(s) on essential cybersecurity requirements for standalone browsers	PWI - Proposed Work Item created	2026/10/30	
Line 18: European standard(s) on essential cybersecurity requirements for password managers									
18	ETSI CYBER-EUSR	ETSI TC Cyber Working Group for EUSR	CEN-CLC/JTC 13 WG 9	*(Will be be defined after the adoption of the Work Item)*	*EN 304 618*	European standard(s) on essential cybersecurity requirements for password managers	PWI - Proposed Work Item created	2026/10/30	
Line 19: European standard(s) on essential cybersecurity requirements for software that searches for, removes, or quarantines malicious software									
19	ETSI CYBER-EUSR	ETSI TC Cyber Working Group for EUSR	CEN-CLC/JTC 13 WG 9	*(Will be be defined after the adoption of the Work Item)*	*EN 304 619*	European standard(s) on essential cybersecurity requirements for software that searches for, removes, or quarantines malicious software	PWI - Proposed Work Item created	2026/10/30	
Line 20: European standard(s) on essential cybersecurity requirements for products with digital elements with the function of virtual private network (VPN)									
20a	ETSI CYBER-EUSR	ETSI TC Cyber Working Group for EUSR	CEN-CLC/JTC 13 WG 9 CLC/TC 65X WG3 mode 2	*(Will be be defined after the adoption of the Work Item)*	*EN 304 620*	European standard(s) on essential cybersecurity requirements for products with digital elements with the function of virtual private network (VPN)	PWI - Proposed Work Item created	2026/10/30	
20b	CLC/TC 65X WG 3	Industrial-process measurement, control and automation	ETSI TC Cyber EUSR Mode 2	81652	*EN 62443-5-XX (Will be be defined after the activation of the Work Item)*	Security Profile for products with digital elements with the function of virtual private network (VPN)	00.60 - PWI - Preliminary Work Item created	2026/10/30	
Line 21: European standard(s) on essential cybersecurity requirements for network management systems									
21a	ETSI CYBER-EUSR	ETSI TC Cyber Working Group for EUSR	CEN-CLC/JTC 13 WG 9 CLC/TC 65X WG3 mode 2	*(Will be be defined after the adoption of the Work Item)*	*EN 304 621*	European standard(s) on essential cybersecurity requirements for network management systems	PWI - Proposed Work Item created	2026/10/30	
21b	CLC/TC 65X WG 3	Industrial-process measurement, control and automation	ETSI TC Cyber EUSR Mode 2	81650	*EN 62443-5-XX (Will be be defined after the activation of the Work Item)*	Security Profile for network management systems (based on IEC 62443)	00.60 - PWI - Preliminary Work Item created	2026/10/30

CEN/CENELEC Work Programme

Project Team 1	Project team 2	Project team 3

• **Cybersecurity requirements for products with digital elements – Principles for cyber resilience**
• WI number – JT013089
• CRA requirement Annex I, Part I, 1
• M/606 item 1, 30/08/2026
• Does not (directly) provide a presumption of conformity.
• Addressing the process activities for security risk management during the total product life cycle.
• Activities are described as:
  • Expected inputs
  • Requirement
  • Expected outputs
  • Assessment criteria
• As a horizontal framework standard, it will not mandate any specific methodologies.
	• **Cybersecurity requirements for products with digital elements – Generic security requirements**
	• WI number : JT013091
	• CRA requirement Annex I, Part I, 2
	• M/606 items 2-14, 30/10/2027
	• Does not provide a presumption of conformity.
	• Addressing the essential product requirements.
	• Provides a library of security controls with their objectives and more technical assessment criteria.
	• Provides a mapping of the essential requirements to these security controls.
	• Builds upon the EN 18031:2024 series, augmented with additional security controls.
		• **Cybersecurity requirements for products with digital elements – Vulnerability handling**
		• WI number : JT013090
		• CRA requirement Annex I, Part II
		• M/606 item 15, 30/08/2026
		• The only horizontal standard of the three that hopefully might be suited for citation to provide a partial presumption of conformity.
		• Addressing the process activities for vulnerability handling.
		• Perceived as a horizontal standard that the verticals should be able to normatively reference with no or minimal adoptions.
		• Strong normative dependency on the SOTA standards EN ISO/IEC 30111 and 29147.

CEN/CENELEC JTC 13 WG9 Work Programme

Project 1

High level process **activities** to address the Total Product Life Cycle, defining:

- Goal that needs to be achieved
- Mandatory and optional inputs
- Minimum expected outcomes

Process activities such as security monitoring, risk assessment, verification, validation and release

Project 3

More detailed process **activities** (with assessment criteria fit for a presumption of conformity) to address the vulnerability management requirements

During risk assessment the appropriate security controls and their appropriate level can be selected to ensure risks are mitigated to an acceptable level

Risk assessment

Product requirements

Project 2

A mapping of the essential product requirements to a list of appropriate **security controls** at various levels

(controls have their own scale/levels to achieve the goal of the security control)

During the elicit requirements activity the deliverables from project 2 can be used to determine and select the appropriate security controls that should be implemented into the product to fulfil on a risk-based manor the essential requirements
